Veterinary Research News	780
--------------------------------	-----

Anesthesia - Analgesia

Analgesic effects of intraneural injection of ethyl alcohol or formaldehyde in the palmar digital nerves of horses	784
<i>Christine P. Schneider, Akikazu Ishihara, Todd P. Adams, Lisa J. Zekas, Michael Oglesbee, and Alicia L. Bertone</i>	

Biomechanics

Effects of tibial plateau angle and spacer thickness applied during in vitro canine total knee replacement on three-dimensional kinematics and collateral ligament strain	792
<i>Katherine M. Baker, Timothy L. Foutz, Kyle J. Johnsen, and Steven C. Budsberg</i>	
Use of an inertial measurement unit to assess the effect of forelimb lameness on three-dimensional hoof orientation in horses at a walk and trot	800
<i>Valerie J. Moorman, Raoul F. Reiser II, Christie A. Mahaffey, Michael L. Peterson, C. Wayne McIlwraith, and Christopher E. Kawcak</i>	

Cardiovascular System

Microcirculatory effects of intravenous fluid administration in anesthetized dogs undergoing elective ovariohysterectomy	809
<i>Deborah C. Silverstein, Elizabeth M. Cozzi, Amber S. Hopkins, and Thomas J. Keefe</i>	

Diagnostic Imaging

In vivo proton magnetic resonance spectroscopy for the evaluation of hepatic encephalopathy in dogs	818
<i>Inés Carrera, Patrick R. Kircher, Dieter Meier, Henning Richter, Katrin Beckman, and Matthias Dennler</i>	

Molecular Biology

Effect of small interfering RNAs on in vitro replication and gene expression of feline coronavirus	828
<i>Eman A. Anis, Rebecca P. Wilkes, Stephen A. Kania, Alfred M. Legendre, and Melissa A. Kennedy</i>	

Oncology

- Evaluation of DNA methylation profiles of the CpG island of the *ABCB1* gene
in dogs with lymphoma835
Hirota Tomiyasu, Aki Fujiwara-Igarashi, Yuko Goto-Koshino, Yasuhito Fujino, Koichi Ohno, and Hajime Tsujimoto

Physiology

- Effect of endotoxin on leukocyte activation and migration into laminar tissue
of isolated perfused equine limbs842
Bianca Patan-Zugaj, Felicia C. Gauff, Johanna Plendl, and Theresia F. Licka

Therigenology

- Clinical sensitivity and specificity of a real-time PCR assay for *Campylobacter fetus* subsp *venerealis*
in preputial samples from bulls851
Alvaro García Guerra, Bonnie Chaban, Janet E. Hill, Cheryl L. Waldner, and Steven H. Hendrick
