Anesthesia - Analgesia

Effects of pulse-delivered inhaled nitric oxide administration on pulmonary perfusion and arterial oxygenation in dorsally recumbent isoflurane-anesthetized horses	949
<i>Tamara L. Grubb, Peter F. Lord, Mieth Berger, Christina Larsson, Anneli Rydén, Jan Frenidin, Pia Funkquist, Anna Edner, and Görel Nyman</i>	
Postoperative analgesic effects of epidural administration of neostigmine alone or in combination with morphine in dogs undergoing orthopedic surgery of the pelvic limbs	956
<i>Rodrigo L. Marucio, Eduardo R. Monteiro, Ludmila R. Moroz, and Denise T. Fantoni</i>	
Effects of a dexmedetomidine constant rate infusion and atropine on changes in global perfusion variables induced by hemorrhage followed by volume replacement in isoflurane-anesthetized dogs	964
<i>Thaísa D. Cândido, Francisco J. Teixeira-Neto, Miriely S. Diniz, Felipe S. Zanuzzo, Lídia R. Teixeira, and Denise T. Fantoni</i>	

Diagnostic Imaging

In vitro evaluation of a novel fiducial marker for computed tomography and magnetic resonance imaging of soft tissues in small animals	974
<i>Jesse L. Terry, Milan Milovancev, and Sarah Nemanic</i>	
Multivoxel proton magnetic resonance spectroscopy of inflammatory and neoplastic lesions of the canine brain at 3.0 T	982
<i>Krystina L. Stadler, Christopher P. Ober, Daniel A. Feeney, and Carl R. Jessen</i>	

Digestive System - Nutrition

Use of micro-lightguide spectrophotometry for evaluation of microcirculation in the small and large intestines of horses without gastrointestinal disease	990
<i>Christof Reichert, Sabine B. R. Kästner, Klaus Hopster, Karl Rohn, and Anna K. Rötting</i>	

Molecular Biology

Effects of synbiotics injected in ovo on regulation of immune-related gene expression in adult chickens	997
<i>Anna Sławinska, Maria Z. Siwek, and Marek F. Bednarczyk</i>	

Surgery

- Effects of sample site and size, skin tension lines, surgeon, and formalin fixation on shrinkage
of skin samples excised from canine cadavers 1004
David A. Upchurch, Renee-Claire Malenfant, Jamie R. Wignall, Daniel M. Ogden, and Katrin Saile

Tissue Regeneration - Healing

- Evaluation of ultrasmall superparamagnetic iron oxide contrast agent labeling of equine cord blood
and bone marrow mesenchymal stromal cells 1010
Celine A. Bourzac, Judith B. Koenig, Kaitlyn A. Link, Stephanie G. Nykamp, and Thomas G. Koch
