Antimicrobials

Impact of polymethylmethacrylate additives on methicillin-resistant <i>Staphylococcus pseudintermedius</i> biofilm formation in vitro	395
<i>Shauna Morrison, Ameet Singh, Joyce Rousseau, Meagan Walker, Alim Nazarali, Evan Crawford, Brigitte Brisson William C. Sears, and J. Scott Weese</i>	

Biomechanics

Effect of screw position on single cycle to failure in bending and torsion of a locking plate-rod construct in a synthetic feline femoral gap model	402
<i>Simone K. Niederhäuser, Slobodan Tepic, and Urs T. Weber</i>	

Bone, Joint, and Cartilage

Mechanical strength of four allograft fixation techniques for ruptured cranial cruciate ligament repair in dogs.	411
<i>Jeffery J. Biskup, Daniel G. Balogh, Kevin H. Haynes, Andy L. Freeman, and Michael G. Conzemius</i>	

Clinical Pathology

Stability of hemostatic proteins in canine fresh-frozen plasma thawed with a modified commercial microwave warmer or warm water bath.	420
<i>Medora B. Pashmakova, James W. Barr, and Micah A. Bishop</i>	

Diagnostic Imaging

Ultrasonographic detection of early atrophy of the intrinsic laryngeal muscles of horses.	426
<i>Heather J. Chalmers, Laurent Viel, Jeff L. Caswell, and Norm Ducharme</i>	

Endocrinology

Evaluation of a thyrotropin-releasing hormone solution stored at room temperature for pituitary pars intermedia dysfunction testing in horses.	437
<i>Lindsay Goodale, Nicholas Frank, Pilar Hermida, and Sarah D'Oench</i>	

Pharmacology

Pharmacologic evaluation of ammonium tetrathiomolybdate after intravenous and oral administration to healthy dogs.	445
<i>Christina M. Chan, Daniel K. Langlois, John P. Buchweitz, Andreas F. Lehner, N. Bari Olivier, Thomas H. Herdt, Marc B. Bailie, and William D. Schall</i>	

Posaconazole pharmacokinetics after administration of an intravenous solution, oral suspension, and delayed-release tablet to dogs.	454
<i>Jennifer Kendall and Mark G. Papich</i>	

Physiology

Effect of long-term oral administration of a low dosage of clenbuterol on body fat percentage in working and nonworking adult horses.	460
<i>Rose D. Nolen-Walston, Caitlin M. Moore, Ciara A. Barr, Joy E. Tomlinson, Raymond C. Boston, and Lawrence R. Soma</i>	

Surgery

In vitro evaluation of bursting pressure and intestinal luminal area of three jejunostomy tube placement techniques in dogs.	467
<i>Marije Risselada, Gary W. Ellison, Matthew D. Winter, Robson F. Giglio, Andre Shih, Jorge A. Hernandez, and Emily Griffith</i>
