Anesthesia - Analgesia

Clinical efficacy of hydrocodone-acetaminophen and tramadol for control of postoperative pain in dogs following tibial plateau leveling osteotomy	755
<i>Marian E. Benitez, James K. Roush, Rose McMurphy, Butch KuKanich, and Claire Legallet</i>	

Pharmacokinetics of hydrocodone and tramadol administered for control of postoperative pain in dogs following tibial plateau leveling osteotomy	763
<i>Marian E. Benitez, James K. Roush, Butch KuKanich, and Rose McMurphy</i>	

Effects of premedication with sustained-release buprenorphine hydrochloride and anesthetic induction with ketamine hydrochloride or propofol in combination with diazepam on intraocular pressure in healthy sheep	771
<i>Bonnie J. Gatson, Luisito Pablo, Caryn E. Plummer, and Tiffany D. Granone</i>	

Antimicrobials

Effect of feeding a direct-fed microbial on total and antimicrobial-resistant fecal coliform counts in preweaned dairy calves	780
<i>Erik M. Corbett, Bo Norby, Lisa W. Halbert, Scott T. Henderson, Daniel L. Grooms, Shannon D. Manning, and John B. Kaneene</i>	

Cardiovascular System

Effect of ascorbic acid on storage of Greyhound erythrocytes	789
<i>Jorge A. Fontes, Uddyalok Banerjee, M. Cristina Iazbik, Liliana M. Marín, C. Guillermo Couto, and Andre F. Palmer</i>	

Microbiology

Assessment of in vitro oxalate degradation by <i>Lactobacillus</i> species cultured from veterinary probiotics	801
<i>Jenny G. Cho, Connie J. Gebhart, Eva Furrow, and Jody P. Lulich</i>	

Physiology

- Attenuation of the pressor response to exogenous angiotensin
by angiotensin receptor blockers and benazepril hydrochloride in clinically normal cats 807
Tiffany L. Jenkins, Amanda E. Coleman, Chad W. Schmiedt, and Scott A. Brown

Tissue Regeneration - Healing

- Comparison of the characteristics and multipotential and in vivo cartilage formation
capabilities between porcine adipose-derived stem cells and porcine
skin-derived stem cell-like cells 814
In-Sun Hwang, Hyo-Kyung Bae, and Hee-Tae Cheong

- Characteristics of canine platelet-rich plasma prepared with five commercially available systems 822
Samuel P. Franklin, Bridget C. Garner, and James L. Cook

Urology

- Estimation of glomerular filtration rate in dogs by a single-blood
sample method involving iohexanol 828
*Yui Sasaki, Ryosuke Iwama, Shunsuke Shimamura, Masaaki Katayama, Yuji Uzuka, Koichi Yabe,
Kiyoshi Takasuna, Hiroshi Satoh, and Kazuhisa Furuhashi*
