

PARASITOLOGY

CONTENTS

RESEARCH ARTICLES

Molecular characterization and development of <i>Sarcocystis speeri</i> sarcocysts in gamma interferon gene knockout mice J.P. Dubey, S.K. Verma, D. Dunams, R. Calero-Bernal and B.M. Rosenthal	1555	Effect of aliphatic, monocarboxylic, dicarboxylic, heterocyclic and sulphur-containing amino acids on <i>Leishmania</i> spp. Chemotaxis E. Diaz, A.K. Zacarias, S. Perez, O. Vanegas, L. Kohidai, M. Padrón-Nieves and A. Ponte-Sucre	1621
BRF1, a subunit of RNA polymerase III transcription factor TFIIB, is essential for cell growth of <i>Trypanosoma brucei</i> D.E. Vélez-Ramírez, L.E. Florencio-Martínez, G. Romero-Meza, S. Rojas-Sánchez, R. Moreno-Campos, R. Arroyo, J. Ortega-López, R. Manning-Cela and S. Martínez-Calvillo	1563	Experimental test of host specificity in a behaviour-modifying trematode R.N. Hernandez and B.L. Fredensborg	1631
Detection of <i>Leishmania infantum</i> in red foxes (<i>Vulpes vulpes</i>) in Central Greece Stelios Karayannidis, Pantelis Ntaias, Ippokratis Messaritakis, Nikolaos Tsirigotakis, Emmanouil Dokianakis and Maria Antoniou	1574	Intranasal vaccination with killed <i>Leishmania amazonensis</i> promastigotes antigen (LaAg) associated with CAF01 adjuvant induces partial protection in BALB/c mice challenged with <i>Leishmania (infantum) chagasi</i>. Janine Miranda Leal, Marcelle Mosquini, Luciana Polaco Covre, Nataly Pescinalli Stagmiller, Rodrigo Ribeiro Rodrigues, Dennis Christensen, Herbert Leonel de Matos Guedes, Bartira Rossi-Bergmann and Daniel Cláudio de Oliveira Gomes	1640
Temporal changes in growth, condition and trophic niche in juvenile <i>Cyprinus carpio</i> infected with a non-native parasite J. Pegg, D. Andreou, C.F. Williams and J.R. Britton	1579	Demasculinization of male guppies increases resistance to a common and harmful ectoparasite Felipe Dargent, Adam R. Reddon, William T. Swaney, Gregor F. Fussmann, Simon M. Reader, Marilyn E. Scott and Mark R. Forbes	1647
Identifying a key host in an acanthocephalan-amphipod system Alexandre Bauer and Thierry Rigaud	1588	BOOK REVIEW Parasitology – A Conceptual Approach. By Eric S. Loker and Bruce V. Hofkin, (eds.) J.R. Stothard	1656
Expression and characterization of a phospholipid hydroperoxide glutathione peroxidase gene in <i>Schistosoma japonicum</i> Ying Zhang, Yuan He, Li He, Hongying Zong and Guobin Cai	1595		
Infracommunity dynamics of chiggers (<i>Trombiculidae</i>) parasitic on a rodent Karlien Barnard, Boris R. Krasnov, Lee Goff and Sonja Matthee	1605		
Plasmodium prevalence across avian host species is positively associated with exposure to mosquito vectors Matthew C.I. Medeiros, Robert E. Ricklefs, Jeffrey D. Brawn and Gabriel L. Hamer	1612
