Analytic Techniques

Plasma interleukin-6 concentration in Standardbred racehorses determined by means of a novel validated ELISA.....	13
<i>Jin-Wen Chen, Cornelius E. Uboh, Mary A. Robinson, Zibin Jiang, and Lawrence R. Soma</i>	

Anesthesia - Analgesia

Effects on indicators of tissue perfusion in dogs anesthetized with isoflurane at two multiples of the minimum alveolar concentration.....	24
<i>Beatriz P. Floriano, Juliana T. Wagatsuma, Joana Z. Ferreira, Caio J. X. Abimussi, Thais M. Menegheti, Paulo S. P. Santos, and Valéria N. L. S. Oliva</i>	

Bone, Joint, and Cartilage

Quantitative comparison of bone mineral density characteristics of the distal epiphysis of third metacarpal bones from Thoroughbred racehorses with or without condylar fracture	32
<i>Sophie H. Bogers, Chris W. Rogers, Charlotte Bolwell, Wendi Roe, Erica Gee, and C. Wayne McIlwraith</i>	

Effect of various testing conditions on results for a handheld reference point indentation instrument in horses.....	39
<i>Timothy B. Lescun, Kevin Hoffseth, Henry T. Yang, Paul K. Hansma, Hal S. Kopeikin, and Srinivasan Chandrasekar</i>	

Production of serum amyloid A in equine articular chondrocytes and fibroblast-like synoviocytes treated with proinflammatory cytokines and its effects on the two cell types in culture	50
<i>Stine Jacobsen, Søren Ladefoged, and Lise C. Berg</i>	

Cardiovascular System

Comparison of blood pressure measurements of anesthetized dogs obtained noninvasively with a cylindrical blood pressure cuff and an anatomically modified conical blood pressure cuff	59
<i>Sara J. Ramos, Anderson F. da Cunha, Michelle Domingues, Amanda M. Shelby, Rhett W. Stout, and Mark J. Acerno</i>	

Oncology

- Pharmacokinetics of orally administered low-dose rapamycin in healthy dogs. 65
*Jeanne C. Larson, Sara D. Allstadt, Timothy M. Fan, Chand Khanna, Paul J. Lunghofer, Ryan J. Hansen,
Daniel L. Gustafson, Alfred M. Legendre, Gina D. Galyon, Amy K. LeBlanc, and Tomas Martin-Jimenez*

Ophthalmology

- Results of selected ophthalmic diagnostic tests
for clinically normal Syrian hamsters (*Mesocricetus auratus*) 72
Seyed Mehdi Rajaei, Maneli Ansari Mood, Reza Sadjadi, and David L. Williams

Respiratory System

- Histopathologic and immunohistochemical features of soft palate muscles and nerves
in dogs with an elongated soft palate 77
*Kiyotaka Arai, Masanori Kobayashi, Yasuji Harada, Yasushi Hara, Masaki Michishita, Kozo Ohkusu-Tsukada,
and Kimimasa Takahashi*

Surgery

- Effects of repeated gas sterilization on closure rates of ameroid ring constrictors in vitro. 84
William W. Kimberlin, Jennifer L. Wardlaw, and Richard W. Madsen

Vaccinology

- Efficacy of four commercially available multivalent modified-live virus vaccines
against clinical disease, viremia, and viral shedding in early-weaned beef calves exposed simultaneously
to cattle persistently infected with bovine viral diarrhea virus and cattle acutely infected
with bovine herpesvirus 1. 88
*Manuel F. Chamorro, Paul H. Walz, Thomas Passler, Roberto Palomares, Benjamin W. Newcomer,
Kay P. Riddell, Julie Gard, Yijing Zhang, and Patricia Galik*

Review

- Veterinary applications of infrared thermography 98
Steven I. Rekant, Mark A. Lyons, Juan M. Pacheco, Jonathan Arzt, and Luis L. Rodriguez
