Anesthesia - Analgesia

Evaluation of the anesthetic efficacy of alfaxalone in oscar fish (<i>Astronotus ocellatus</i>)	239
<i>Alice M. Bugman, Peter T. Langer, Eva Hadzima, Anne E. Rivas, and Mark A. Mitchell</i>	
Antinociceptive effects of intravenous administration of hydromorphone hydrochloride alone or followed by buprenorphine hydrochloride or butorphanol tartrate to healthy conscious cats	245
<i>Bradley T. Simon, Paulo V. Steagall, Beatriz P. Monteiro, Eric Troncy, and Ignacio Lizarraga</i>	
Physiologic and biochemical effects of electroacupuncture combined with intramuscular administration of dexmedetomidine to provide analgesia in goats	252
<i>Zahir Shah, Man L. Hu, Zheng Y. Qiu, Fei Y. Zhou, Jie Zeng, Juan Wan, Shao W. Wang, Wei Zhang, and Ming X. Ding</i>	

Antimicrobials

Pharmacokinetics of long-acting cefovecin in copper rockfish (<i>Sebastes caurinus</i>)	260
<i>Kathryn E. Seeley, Karen N. Wolf, Melissa A. Bishop, Megan Turnquist, and Butch KuKanich</i>	

Bone, Joint, and Cartilage

Morphological characteristics of subchondral bone cysts in medial femoral condyles of adult horses as determined by computed tomography	265
<i>Wade T. Walker, Jesse L. Silverberg, Christopher E. Kawcak, Bradley B. Nelson, and Lisa A. Fortier</i>	

Cardiovascular System

Effects of catheter shape, interelectrode spacing, and electrode size on transesophageal atrial pacing in dogs	275
<i>Robert A. Sanders and Emily H. Chapel</i>	
Changes in pulse pressure variation and plethysmographic variability index caused by hypotension-inducing hemorrhage followed by volume replacement in isoflurane-anesthetized dogs	280
<i>Adriana V. Klein, Francisco J. Teixeira-Neto, Natache A. Garofalo, Angie P. Lagos-Carvajal, Miriely S. Diniz, and Diana R. Becerra-Velásquez</i>	

Digestive System - Nutrition

- Circadian and postprandial variation in plasma citrulline concentration in healthy dogs 288
Julien M. Dahan, Celine Giron, Didier Concordet, and Olivier Dossin
- Feasibility of flexible endoscopic evaluation of swallowing in healthy dogs 294
Stanley L. Marks, Katie L. Douthitt, and Peter C. Belafsky

Endocrinology

- Effects of diet-induced weight gain and turnout to pasture on insulin sensitivity
in moderately insulin-resistant horses 300
Sanna S. Lindåse, Katarina E. Nostell, Cecilia E. Müller, Marianne Jensen-Waern, and Johan T. Bröjer

Ophthalmology

- Effects of a medetomidine-ketamine combination on Schirmer tear test I results
of clinically normal cats 310
*Simona Di Pietro, Francesco Macrì, Tiziana Bonarrigo, Elisabetta Giudice, Angela Palumbo Piccionello,
and Antonio Pugliese*

Surgery

- In vitro development and evaluation of a polyacrylic acid-silicone device intended
for gradual occlusion of portosystemic shunts in dogs and cats 315
Mandy L. Wallace, Gary W. Ellison, Christopher Batich, J. Brad Case, and Stanley E. Kim
