

# PARASITOLOGY

## CONTENTS

### SPECIAL ISSUE

#### INVITED REVIEWS

##### Naturally acquired immunity to malaria

Alyssa Barry and Diana Hansen

125

##### *Plasmodium malaria* and antimalarial antibodies in the first year of life

Katherine R. Dobbs and Arlene E. Dent

129

##### Immunity to malaria in an era of declining malaria transmission

Freya J. I. Fowkes, Philippe Boeuf and James G. Beeson

139

##### Insights into the naturally acquired immune response to *Plasmodium vivax* malaria

Rhea J. Longley, Jetsumon Sattabongkot and Ivo Mueller

154

##### The role of PfEMP1 as targets of naturally acquired immunity to childhood malaria: prospects for a vaccine

Peter C. Bull and Abdurrahman I. Abdi

171

##### Naturally acquired immunity to sexual stage *P. falciparum* parasites

Will J. R. Stone, Kathleen W. Dantzer, Sandra K. Nilsson, Chris J. Drakeley, Matthias Marti, Teun Bousema and Sanna R. Rijpmma

187

##### Immunological processes underlying the slow acquisition of humoral immunity to malaria

Victoria Ryg-Cornejo, Ann Ly and Diana S. Hansen

199

##### Examining cellular immune responses to inform development of a blood-stage malaria vaccine

Danielle I. Stanisic and Michael F. Good

208

##### Immune activation and induction of memory: lessons learned from controlled human malaria infection with *Plasmodium falciparum*

Anja Scholzen and Robert W. Sauerwein

224

##### Immunomics: a 21st century approach to vaccine development for complex pathogens

Karina P. De Sousa and Denise L. Doolan

236
