JAVMA News Digest	432
-------------------------	-----

Anesthesia - Analgesia

Pharmacokinetics of meloxicam in red-eared slider turtles (<i>Trachemys scripta elegans</i>) after single intravenous and intramuscular injections	439
<i>Kamil Uney, Feray Altan, Mohammed Aboubakr, Gul Cetin, and Burak Dik</i>	

Biomechanics

Biomechanical evaluation of two plating configurations for critical-sized defects of the mandible in dogs.	445
<i>Boaz Arzi, Susan M. Stover, Tanya C. Garcia, Dustin M. Leale, and Frank J. M. Verstraete</i>	

Diagnostic Imaging

Evaluation of intracranial neoplasia and noninfectious meningoencephalitis in dogs by use of short echo time, single voxel proton magnetic resonance spectroscopy at 3.0 Tesla	452
<i>Inés Carrera, Henning Richter, Katrin Beckmann, Dieter Meier, Matthias Dennler, and Patrick R. Kircher</i>	
Perfusion- and diffusion-weighted magnetic resonance imaging of the liver of healthy dogs	463
<i>Francesca Del Chicca, Andrea Schwarz, Paula Grest, and Patrick R. Kircher</i>	
Comparison of visual metric and planimetry methods for brain tumor measurement in dogs	471
<i>Chris B. Thomson, Kevin H. Haynes, and G. Elizabeth Pluhar</i>	
Ultrasonographic predictors of response of European eels (<i>Anguilla anguilla</i>) to hormonal treatment for induction of ovarian development	478
<i>Anna V. Müller, Fintan J. McEvoy, Jonna Tomkiewicz, Sebastian N. Politis, and José M. Amigo</i>	

Immunology

Evaluation of the role of the cyclooxygenase signaling pathway during inflammation in skin and muscle tissues of ball pythons (<i>Python regius</i>)	487
<i>Ryan A. Sadler, Juergen P. Schumacher, Kusum Rathore, Kim M. Newkirk, Grayson Cole, Rachel Seibert, and Maria Cekanova</i>	
Evaluation of a feline-specific multiplex, bead-based assay for detection of cytokines, chemokines, growth factors, and other immunologically active proteins in serum and plasma samples from cats.	495
<i>Rachel E. Halpin, Rebecca S. Saunders, Beverly J. Thompson, Allison S. Rohde Newgent, Juliana Amorim, Gabrielle N. Melillo, and Amy E. DeClue</i>	

Infectious Disease

- Antimicrobial resistance trends among *Salmonella* isolates obtained from horses in the northeastern United States (2001–2013) 505
Kevin J. Cummings, Gillian A. Perkins, Sarah M. Khatibzadeh, Lorin D. Warnick, Victor A. Aprea, and Craig Altier

Microbiology

- Effect of in ovo administration of an adult-derived microbiota on establishment of the intestinal microbiome in chickens 514
Adriana A. Pedroso, Amy B. Batal, and Margie D. Lee

Musculoskeletal System

- Effect of hoof boots and toe-extension shoes on the forelimb kinetics of horses during walking 527
Fernando N. Amitrano, Santiago D. Gutierrez-Nibeyro, and David J. Schaeffer

Physiology

- Effects of ischemia and reperfusion on eosinophilic accumulation and distribution in mucosa of equine jejunum and colon 534
Anna K. Rötting, David E. Freeman, Peter D. Constable, Jo Ann C. Eurell, and Matt A. Wallig

Surgery

- Collateral circulation in ferrets (*Mustela putorius*) during temporary occlusion of the caudal vena cava 540
Kristina W. Calicchio, R. Avery Bennett, Leonard C. Laraio, Chick Weisse, Allison L. Zwingenberger, Karen L. Rosenthal, Matthew S. Johnston, Vicki L. Campbell, and Jeffrey A. Solomon
- Ex vivo evaluation of the effect of various surgical procedures on blood delivery to the patellar tendon of dogs 548
Matthew D. Johnson, Cindy L. Shmon, Kathleen A. Linn, and Baljit Singh
