REVIEW ARTICLE

Alpha proteobacteria of genus *Anaplasma* (Rickettsiales: Anaplasmataceae): Epidemiology and characteristics of *Anaplasma* species related to veterinary and public health importance

Farhan Ahmad Atif

659

RESEARCH ARTICLES

First molecular survey and identification of *Anaplasma* spp. in white yaks (*Bos grunniens*) in China

Jifei Yang, Zhijie Liu, Qingli Niu, Junlong Liu, Guiquan Guan, Jingying Xie, Jianxun Luo, Shuqing Wang, Shufang Wang and Hong Yin

686

Distinct courses of infection with *Leishmania* (*L.*) *amazonensis* are observed in BALB/c, BALB/c nude and C57BL/6 mice

Leonardo G. Velasquez, Mariana K. Galuppo, Eloiza De Rezende, Wesley N. Brandão, Jean Pierre Peron, Silvia R. B. Uliana, Maria Irma Duarte and Beatriz S. Stolf

692

TGF- β receptor type II costameric localization in cardiomyocytes and host cell TGF- β response is disrupted by *Trypanosoma cruzi* infection

Claudia Magalhães Calvet, Tatiana Araújo Silva, Tatiana Galvão De Melo, Tânia Cremonini De Araújo-Jorge and Mirian Claudia De Souza Pereira

704

Density-dependent regulation of fecundity in *Syngamus trachea* infrapopulations in semi-naturally occurring ring-necked pheasants (*Phasianus colchicus*) and wild Carrion Crows (*Corvus corone*)

O. J. Gethings, R. B. Sage and S. R. Leather

716

Szidat's rule re-tested: relationships between flea and host phylogenetic clade ranks in four biogeographic realms

Boris R. Krasnov, Daniel Kiefer, Elizabeth M. Warburton and Irina S. Khokhlova

723

Myxozoans as biological tags for stock identification of the Argentine hake, *Merluccius hubbsi* (Gadiformes: Merlucciidae)

D. M. P. Cantatore, M. M. Irigoitia, A. S. Holzer and J. T. Timi

732

Molecular identification of *Entamoeba* species in savanna woodland chimpanzees (*Pan troglodytes schweinfurthii*)

Kateřina Jirků-Pomajbíková, Ivan Čepička, Barbora Kalousová, Milan Jirků, Fiona Stewart, Bruno Levecke, David Modrý, Alex K. Piel and Klára J. Petrželková

741

The fine structure of sexual stage development and sporogony of *Cryptosporidium parvum* in cell-free culture

Hebatalla M. Aldeyari and Panagiotis Karanis

749

California mussels (*Mytilus californianus*) as sentinels for marine contamination with *Sarcocystis neurona*

Lauren Michaels, Daniel Rejmanek, Beatriz Aguilar, Patricia Conrad and Karen Shapiro

762

Anthelmintic activity of chicory (*Cichorium intybus*): *in vitro* effects on swine nematodes and relationship to sesquiterpene lactone composition

Andrew R. Williams, Miguel A. Peña-Espinoza, Ulrik Boas, Henrik T. Simonsen, Heidi L. Enemark and Stig M. Thamsborg

770

In vitro assessment of the anthelmintic activity of *Hedysarum carnosum* Desf. at different phenological stages and from six locations in Tunisia

A. Aissa, F. Manolaraki, H. Ben Salem, H. Hoste and K. Kraiem

778

Mite choice generates sex- and size-biased infection in *Drosophila hydei*

Erin O. Campbell and Lien T. Luong

787

Heavy metal accumulation in *Lacistorhynchus dollfusi* (Trypanorhyncha: Lacistorhynchidae) infecting *Citharichthys sordidus* (Pleuronectiformes: Bothidae) from Santa Monica Bay, Southern California

C. Courtney-Hogue

794
