

PARASITOLOGY

CONTENTS

REVIEW ARTICLES

- Blood parasites of penguins: a critical review
Ralph Eric Thijl Vanstreels, Érika Martins Braga and
José Luiz Catão-Dias

- Apicomplexans pulling the strings: manipulation of the host
cell cytoskeleton dynamics
Rita Cardoso, Helena Soares, Andrew Hemphill and
Alexandre Leitão

RESEARCH ARTICLES

- Single and multi-gene phylogeny of *Hepatospora*
(Microsporidia) – a generalist pathogen of farmed and wild
crustacean hosts
K. S. Bateman, D. Wiredu-Boakye, R. Kerr, B. A. P. Williams
and G. D. Stentiford
- Negative covariance between parasite load and body
condition in a population of feral horses
Lucie Debeffe, Philip D. McLoughlin, Sarah A. Medill,
Katherine Stewart, Daniel Andres, Todd Shury, Brent Wagner,
Emily Jenkins, John S. Gillard and Jocelyn Poissant
- No more time to stay 'single' in the detection of *Anisakis*
pegreffii, *A. simplex* (s. s.) and hybridization events between
them: a multi-marker nuclear genotyping approach
S. Mattucci, V. Acerra, M. Paoletti, P. Cipriani, A. Levsen,
S. C. Webb, D. Canestrelli and G. Nascetti

- Intercontinental distribution of a new trypanosome species
from Australian endemic Regent Honeyeater (*Anthochaera*
phrygia)

- Jan Ślapeta, Victoria Morin-Adeline, Paul Thompson,
Denise McDonell, Michael Shiels, Katrina Gilchrist, Jan Votýpka
and Larry Vogelnest

931	<i>Microdiversity of Echinococcus granulosus sensu stricto</i> in Australia C. A. Alvarez Rojas, D. Ebi, C. G. Gauci, J. P. Scheerlinck, M. Wassermann, D. J. Jenkins, M. W. Lightowlers and T. Romig	1026
957	<i>Iron-modulated pseudocyst formation in Tritrichomonas</i> <i>foetus</i> Cássia Castro, Rubem Figueiredo Sadok Menna-Barreto, Nilma De Souza Fernandes, Leonardo Saboia-Vahia, Geovane Dias-Lopes, Constança Britto, Patricia Cuervo and José Batista De Jesus	1034
971	<i>Ascaris</i> and hookworm transmission in preschool children in rural Panama: role of subsistence agricultural activities Rachel J. Krause, Kristine G. Koski, Emérita Pons, Odalis Sinisterra and Marilyn E. Scott	1043
983	Development of a recombinant protein-based ELISA for diagnosis of larval cyathostomin infection Mairi C. Mitchell, Thomas Tzelos, Ian Handel, Hamish E. G. McWilliam, Jane E. Hodgkinson, Alasdair J. Nisbet, Vitaliy O. Kharchenko, Stewart T. G. Burgess and Jacqueline B. Matthews	1055
998	Tetractinomyxon stages genetically consistent with <i>Sphaerospora dicentrarchi</i> (Myxozoa: Sphaerosporidae) found in <i>Capitella</i> sp. (Polychaeta: Capitellidae) suggest potential role of marine polychaetes in parasite's life cycle Luis F. Rangel, Ricardo Castro, Sónia Rocha, Ricardo Severino, Graça Casal, Carlos Azevedo, Francisca Cavaleiro and Maria J. Santos	1067
1012
