Anesthesia - Analgesia

The effects of lidocaine or a lidocaine-bupivacaine mixture administered into the infraorbital canal in dogs	682
<i>Peter J. Pascoe</i>	

Safety and toxicokinetic profiles associated with daily oral administration of grapiprant, a selective antagonist of the prostaglandin E ₂ EP4 receptor, to cats	688
<i>Lesley C. Rausch-Derra and Linda Rhodes</i>	

Cardiovascular System

Use of RNA-seq to identify cardiac genes and gene pathways differentially expressed between dogs with and without dilated cardiomyopathy	693
<i>Steven G. Friedenberg, Lhoucine Chdid, Bruce Keene, Barbara Sherry, Alison Motsinger-Reif, and Kathryn M. Meurs</i>	

Assessment of the effects of dalteparin on coagulation variables and determination of a treatment schedule for use in cats	700
<i>Jette C. Schöning and Reinhard H. Mischke</i>	

Effect of infusion of equine plasma or 6% hydroxyethyl starch (600/0.75) solution on plasma colloid osmotic pressure in healthy horses.	708
<i>Erica C. McKenzie, Melissa M. Esser, Sarah E. McNitt, and Mark E. Payton</i>	

Diagnostic Imaging

Repeatability and reproducibility of right ventricular Tei index values derived from three echocardiographic methods for evaluation of cardiac function in dogs	715
<i>Tomoya Morita, Kensuke Nakamura, Tatsuyuki Osuga, Sue Yee Lim, Nozomu Yokoyama, Keitaro Morishita, Hiroshi Ohta, and Mitsuyoshi Takiguchi</i>	

Digestive System - Nutrition

Comparison of the expression, activity, and fecal concentration of intestinal alkaline phosphatase between healthy dogs and dogs with chronic enteropathy	721
<i>Kaori Ide, Kazuki Kato, Yuki Sawa, Akiko Hayashi, Rei Takizawa, and Koji Nishifuji</i>	

Endocrinology

- Effects of anesthesia with isoflurane on plasma concentrations of adrenocorticotrophic hormone in samples obtained from the cavernous sinus and jugular vein of horses 730
James L. Carmalt, Tanya Duke-Novakovski, Harold C. Schott II, and Johannes H. van der Kolk

- Effects of withholding feed on thyrotropin-releasing hormone stimulation test results and effects of combined testing on oral sugar test and thyrotropin-releasing hormone stimulation test results in horses 738
Melissa M. Restifo, Nicholas Frank, Pilar Hermid, and Alfredo Sanchez-Londoño

Musculoskeletal System

- Assessment of novel digital and smartphone goniometers for measurement of canine stifle joint angles 749
Kristin A. Freund, Nina R. Kieves, Juliette L. Hart, Sasha A. Foster, Unity Jeffery, and Felix M. Duerr

- Effects of repetition within trials and frequency of trial sessions on quantitative parameters of vertical force peak in horses with naturally occurring lameness. 756
Mari Kaido, Allison H. Kilborne, Joy L. Sizemore, Nathalie A. Reisbig, Turi K. Aarnes, and Alicia L. Bertone

Neurology

- Evaluation of epiduroscopy for detection of vertebral canal and spinal cord lesions in dogs 766
Fernando L. Garcia-Pereira, Timo Prange, Aaron Seller, and Victoria Obert

Surgery

- Temporary percutaneous T-fastener gastropexy and continuous decompressive gastrostomy in dogs with experimentally induced gastric dilatation 771
W. Alexander Fox-Alvarez, J. Brad Case, Kirsten L. Cooke, Fernando L. Garcia-Pereira, Gareth J. Buckley, Eric Monnet, and Beau B. Toskich

Tissue Regeneration - Healing

- Assessment of regeneration in meniscal lesions by use of mesenchymal stem cells derived from equine bone marrow and adipose tissue. 779
Maria L. González-Fernández, Saúl Pérez-Castrillo, Jaime A. Sánchez-Lázaro, Julio G. Prieto-Fernández, Maria E. López-González, Sandra Lobato-Pérez, Bruno J. Colaço, Elías R. Olivera, and Vega Villar-Suárez

Correction

- Comparative pharmacokinetics of ceftiofur hydrochloride and ceftiofur sodium after administration to water buffalo (*Bubalus bubalis*) 765
