Anesthesia - Analgesia

Effect of fentanyl and lidocaine on the end-tidal sevoflurane concentration preventing motor movement in dogs	12
<i>Martin A. Suarez, Reza Seddighi, Christine M. Egger, Barton W. Rohrbach, Sherry K. Cox, Butch K. KuKanich, and Thomas J. Doherty</i>	

Antimicrobials

Pharmacokinetics of intravenous continuous rate infusions of sodium benzylpenicillin and ceftiofur sodium to adult horses	17
<i>Scott H. Edwards, Shahid A. Khalfan, Glenn A. Jacobson, Adam D. Pirie, and Sharanne L. Raidal</i>	

Biomechanics

Biomechanics of an orthosis-managed cranial cruciate ligament-deficient canine stifle joint predicted by use of a computer model.	27
<i>Gina E. Bertocci, Nathan P. Brown, and Patrice M. Mich</i>	

Digestive System - Nutrition

Assessment of eosinophil peroxidase as a potential diagnostic and prognostic marker in dogs with inflammatory bowel disease	36
<i>Idil Bastan, Nicholas A. Robinson, Xiao Na Ge, Aaron K. Rendahl, Savita P. Rao, Robert J. Washabau, and P. Sriramara</i>	
Evaluation of gastroscopy and biopsy of the proventriculus and ventriculus in pigeons (<i>Columba livia</i>)	42
<i>Izidora Sladakovic, Angela E. Ellis, and Stephen J. Divers</i>	

Epidemiology - Statistical Modeling

Ability of clinicopathologic variables and clinical examination findings to predict race elimination in endurance horses	50
<i>C. Langdon Fielding, Chloe A. Meier, Greg K. Fellers, and K. Gary Magdesian</i>	

Infectious Disease

Survivability of <i>Mycobacterium bovis</i> on salt and salt-mineral blocks fed to cattle.	57
<i>John B. Kaneene, Joseph A. Hattey, Carole A. Bolin, James Averill, and RoseAnn Miller</i>	

Molecular Biology

- High-resolution melting analysis for detection of a single-nucleotide polymorphism and the genotype of the myostatin gene in warmblood horses. 63
Priscila B. S. Serpa, Petra Garbade, Cláudio C. Natalini, Ananda R. Pires, and Tainor M. Tisotti

Oncology

- Evaluation of procoagulant tissue factor expression in canine hemangiosarcoma cell lines. 69
Lauren E. Witter, Erika J. Gruber, Fabian Z. X. Lean, and Tracy Stokol

Ophthalmology

- Corneal thickness of eyes of healthy goats, sheep, and alpacas manually measured by use of a portable spectral-domain optical coherence tomography device. 80
Alexander J. LoPinto, Chris G. Pirie, Daniela Bedenice, and Sandra L. Ayres

- Effects of diurnal variation and anesthetic agents on intraocular pressure in Syrian hamsters (*Mesocricetus auratus*) 85
Seyed Mehdi Rajaei, Maneli Ansari Mood, Mohammad Reza Paryani, and David L. Williams

Pharmacology

- Pharmacokinetics of terbinafine in little brown myotis (*Myotis lucifugus*) infected with *Pseudogymnoascus destructans*. 90
Michael H. Court, Alison H. Robbins, Anne M. Whitford, Erika V. Beck, Flo S. Tseng, and DeeAnn M. Reeder

Surgery

- Effects of prophylactic incisional gastropexy on markers of gastric motility in dogs as determined by use of a novel wireless motility device 100
Krista M. Gazzola, Laura L. Nelson, Michele C. Fritz, Michelle R. Clancy, and Joe G. Hauptman

Urology

- Effectiveness of manual bladder expression in paraplegic dogs 107
Darren R. Carwardine, Jeremy H. Rose, Thomas R. Harcourt-Brown, and Nicolas Granger
