Anesthesia - Analgesia

Pharmacokinetics of meloxicam after intramuscular and oral administration of a single dose to American flamingos (<i>Phoenicopterus ruber</i>)	267
<i>Jennifer L. Boonstra, Sherry K. Cox, and Tomas Martin-Jimenez</i>	

Clinical Pathology

Reference intervals for serum reactive oxygen metabolites, biological antioxidant potential, and oxidative stress index in adult rams.	274
<i>Ioannis L. Oikonomidis, Evangelos A. Kiosis, Christos N. Brozos, and Maria G. Kritsepi-Konstantinou</i>	

Diagnostic Imaging

Effect of position and time held in that position on ground-glass opacity in computed tomography images of dogs.	279
<i>Sang-Kwon Lee, Seungjo Park, Byunggyu Cheon, Sohyeon Moon, Sunghwa Hong, Hyun Cho, Dongwoo Chang, and Jihye Choi</i>	

Computed tomographic assessment of sternal lymph node dimensions and attenuation in healthy dogs.	289
<i>Milan Milovancev, Sarah Nemanic, and Gerd Bobe</i>	

Comparison of elastography, contrast-enhanced ultrasonography, and computed tomography for assessment of lesion margin after radiofrequency ablation in livers of healthy dogs	295
<i>Sohyeon Moon, Seungjo Park, Sang-kwon Lee, Byunggyu Cheon, Sunghwa Hong, Hyun Cho, Jun-Gyu Park, Mia Madel Alfajaro, Kyoung-Oh Cho, Dong Woo Chang, and Jihye Choi</i>	

Interictal diffusion and perfusion magnetic resonance imaging features of cats with familial spontaneous epilepsy	305
<i>Shunta Mizoguchi, Daisuke Hasegawa, Yuji Hamamoto, Yoshihiko Yu, Takayuki Kuwabara, Aki Igarashi-Fujiwara, and Michio Fujita</i>	

Ophthalmology

Comparison of indocyanine green and sodium fluorescein for anterior segment angiography of ophthalmically normal eyes of goats, sheep, and alpacas performed with a digital single-lens reflex camera adaptor	311
<i>Alexander J. LoPinto, Chris G. Pirie, Sandra L. Ayres, and Daniela Bedenice</i>	

Pharmacology

- Pharmacokinetics and pharmacodynamics of buprenorphine and sustained-release buprenorphine after administration to adult alpacas. 321
S. Bryce Dooley, Turi K. Aarnes, Jeffrey Lakritz, Phillip Lerche, Richard M. Bednarski, and John A. E. Hubbell

Physiology

- Effect of cold storage on immediate graft function in an experimental model of renal transplantation in cats. 330
Rebecca A. Csomos, Robert J. Hardie, Chad W. Schmiedt, Fern A. Delaney, and Jonathan F. McAnulty
- Cardiorespiratory function in Thoroughbreds during locomotion on a treadmill at an incline or decline. 340
Hajime Ohmura, Kazutaka Mukai, Toshiyuki Takahashi, Hiroko Aida, and James H. Jones

Respiratory System

- Comparison of the diagnostic performance of bacterial culture of nasopharyngeal swab and bronchoalveolar lavage fluid samples obtained from calves with bovine respiratory disease. 350
Sarah F. Capik, Brad J. White, Brian V. Lubbers, Michael D. Apley, Keith D. DeDonder, Robert L. Larson, Greg P. Harhay, Carol G. Chitko-McKown, Dayna M. Harhay, Ted S. Kalbfleisch, Gennie Schuller, and Michael L. Clawson
- Evaluation of contractile phenotype in airway smooth muscle cells isolated from endobronchial biopsy and tissue specimens from horses. 359
Amandine Vargas, Aude Peltier, Jean Dubé, Josiane Lefebvre-Lavoie, Véronique Moulin, Francine Goulet, and Jean-Pierre Lavoie

Tissue Regeneration - Healing

- Evaluation of gene expression and DNA copy number profiles of adipose tissue-derived stromal cells and consecutive neurosphere-like cells generated from dogs with naturally occurring spinal cord injury. 371
Ji-Hey Lim, Sehwon Koh, Rachael Thomas, Matthew Breen, and Natasha J. Olby

Urology

- Passive ureteral dilation and ureteroscopy after ureteral stent placement in five healthy Beagles. 381
Catherine Vachon, Alice Defarges, Brigitte Brisson, Stephanie Nykamp, J. Scott Weese, John Denstedt, and Allyson C. Berent
