New Zealand Veterinary Journal

Volume 65 Number 3 May 2017 ISSN 0048-0169

Scientific Articles

- The vitamin B₁₂ and Se status of lambs during their transition from milk-fed monogastric to grazing herbivore
SO Knowles and ND Grace 113
- Effect of time of artificial insemination after oestrus detection on non-return rate of lactating dairy cows on pasture
ZZ Xu 119
- Evaluating the benefits of vaccination when used in combination with stamping-out measures against hypothetical introductions of foot-and-mouth disease into New Zealand: a simulation study
RL Sanson, T Rawdon, K Owen, K Hickey, M van Andel and ZD Yu 124
- Prevention of fetal infection in heifers challenged with bovine viral diarrhoea virus type 1a by vaccination with a type 1c or type 1a vaccine
R Packianathan, WJ Clough, A Hodge, DK Holz, J Huang, GL Bryant and C Colantoni 134

Short Communications

- Adenomatous hyperplasia of the mucous glands in captive Archey's frogs (*Leiopelma archeyi*)
SD Shaw, L Berger, C Harvey, MR Alley, PJ Bishop and R Speare 140
- Pathological changes seen in horses in New Zealand grazing Mediterranean tall fescue (*Lolium arundinaceum*) infected with selected endophytes (*Epichloë coenophiala*) causing equine fescue oedema
JS Munday, SC Finch, JB Vlaming, BL Sutherland and LR Fletcher 147
- Comparison of two long acting pre-lambing anthelmintic treatments on the productivity of ewes in low body condition
C Bingham, A Hodge and B Mariadass 152

Clinical Communications

- Systemic granulomatous and haemorrhagic syndrome in New Zealand dairy cattle
TG Rawdon, KN Buckle, KE Lawrence, KG Thompson, AF Julian, BL Vaatstra, AC Johnstone, JF Weston and RA Fairley 156
- Association between age and time from calving and reported lameness in a dairy herd in the Waikato region of New Zealand
W Mason 163

Peer-reviewed Correspondence

- Suspected phenobarbitone hypersensitivity with acute liver failure in a dog
L Bosseler, I Cornelis, P Defauw, S Daminet and R Ducatelle 168

Cover: An adult Archey's frog (*Leiopelma archeyi*) observed during a regular survey of the population in the Coromandel Peninsula, New Zealand. This population declined by >80% between 1996–2001 and the species is ranked as critically endangered according to IUCN. Photograph by Phil Bishop.
