Scope

The *New Zealand Veterinary Journal* (NZVJ) is an international journal publishing high quality peer-reviewed articles covering all aspects of veterinary science, including clinical practice, animal welfare and animal health.

Instructions for Authors

See the NZVJ website
<http://www.vetjournal.org.nz/>

The whole of the literary matter of the *New Zealand Veterinary Journal* is copyright, New Zealand Veterinary Association Inc.

Disclaimer:

The *New Zealand Veterinary Journal* is published by the New Zealand Veterinary Association Incorporated (NZVA) in association with Taylor & Francis. The NZVA and Informa UK Limited, trading as Taylor & Francis Group make every effort to ensure the accuracy of all the information (the 'Content') contained in its publications. However, the NZVA and Informa UK Limited, trading as Taylor & Francis Group and its agents and licensors make no representations or warranties whatsoever as to the accuracy, completeness or suitability for any purpose of the Content and disclaim all such representations and warranties whether express or implied to the maximum extent permitted by law. Any views expressed in this publication are the views of the authors and are not necessarily the views of the Editor, the NZVA or Informa UK Limited, trading as Taylor & Francis Group.

Scientific Articles

- Prevalence and risk factors for cats testing positive for feline immunodeficiency virus and feline leukaemia virus infection in cats entering an animal shelter in New Zealand
MC Gates, S Vigeant and A Dale 285
- Retrospective evaluation of milk production and culling risk following either surgical, toggle-pin suture or conservative treatment of left displaced abomasum in Chilean dairy cows
P Melendez, C Romero, P Pithua, MP Marin, P Pinedo and M Duchens 292
- Prevalence and calf-level risk factors for failure of passive transfer in dairy calves in New Zealand
EL Cuttance, WA Mason, RA Laven, J McDermott and CVC Phyn 297
- Cluster analysis of the clinical histories of cattle affected with bovine anaemia associated with *Theileria orientalis* Ikeda type infection
KE Lawrence, SF Forsyth, BL Vaatstra, AMJ McFadden, DJ Pulford, K Govindaraju and WE Pomroy 305

Short Communications

- Preliminary description of aging cats and dogs presented to a New Zealand first-opinion veterinary clinic at end-of-life
MC Gates, HJ Hinds and A Dale 313
- A pilot study comparing the effect of orally administered esomeprazole and omeprazole on gastric fluid pH in horses
KE Huxford, AJ Dart, NR Perkins, R Bell and LB Jeffcott 318
- Further investigation of equine fescue oedema induced by Mediterranean tall fescue (*Lolium arundinaceum*) infected with selected fungal endophytes (*Epichloë coenophiala*)
SC Finch, JS Munday, BL Sutherland, JB Vlaming and LR Fletcher 322
- Frequency of a FAS ligand gene variant associated with inherited feline autoimmune lymphoproliferative syndrome in British shorthair cats in New Zealand
D Aberdein, JS Munday, KE Dittmer, RW Heathcott and LA Lyons 327

Clinical Communication

- Cases of mortality in little penguins (*Eudyptula minor*) in New Zealand associated with avian malaria
DC Sijbranda, S Hunter, L Howe, B Lenting, L Argilla and BD Gartrell 332
