## FOOD SCIENCE AND TECHNOLOGY INTERNATIONAL

VOLUME 23 NUMBER 7 OCTOBER 2017 ISSN 1082-0132

Application and possible benefits of high hydrostatic pressure or high-pressure homogenization on beer processing: A review  ARTICLES  M. KASHIRI, Y. MAGHSOUDLO AND M. KHOMEIRI Incorporating Zataria multiflora Boiss. essential oil and sodium bentonite nano-clay open a new perspective to use zein films as bioactive packaging materials  J. PETROVIĆ, D. RAKIĆ, A. FIŠTEŠ, B. PAJIN, I. LONČAREVIĆ, V. TOMOVIĆ AND D. ZARIĆ Defatted wheat germ application: Influence on cookies' properties with regard to its particle size and dough moisture content  K. Y. CHONG, N.L. CHIN AND Y.A. YUSOF Thermosonication and optimization of stingless bee honey processing  C. COLLAR Significance of heat-moisture treatment conditions on the pasting and gelling behaviour of various starch-rich cereal and pseudocereal flours	CONTENTS	Page
