-------------------------	-----

Anesthesia - Analgesia

Comparison of desflurane and propofol at equipotent doses in combination with a constant rate infusion of dexmedetomidine on global and peripheral perfusion and oxygenation in horses	487
<i>Stephan Neudeck, Sabine B. R. Kästner, Liza Wittenberg-Voges, Karl Rohn, and Klaus Hopster</i>	

Respiratory effects of low versus high tidal volume with or without positive end-expiratory pressure in anesthetized dogs with healthy lungs	496
<i>Valentina De Monte, Antonello Bufalari, Salvatore Grasso, Fabienne Ferrulli, Alberto Maria Crovace, Luca Lacitignola, and Francesco Staffieri</i>	

Bone, Joint, and Cartilage

Hyaluronic acid synthase-2 gene transfer into the joints of Beagles by use of recombinant adeno-associated viral vectors	505
<i>Sirkka Kyostio-Moore, Patricia Berthelette, Cathleen Sookdeo Cornell, Bindu Nambiar, and Monica Dias Figueiredo</i>	

Cardiovascular System

Influence of immune-mediated hemolytic anemia on flow velocities in the portal vein and caudal vena cava measured by use of pulsed-wave Doppler ultrasonography in dogs	518
<i>Rachel Policelli Smith, Amy M. Koenigshof, Daniel J. Smith, Phillip R. Strom, and Nathan C. Nelson</i>	

Clinical Pathology

Effect of blood contamination on results of dipstick evaluation and urine protein-to-urine creatinine ratio for urine samples from dogs and cats	525
<i>Aida I. Vientós-Plotts, Ellen N. Behrend, Elizabeth G. Welles, Dennis J. Chew, Philippe R. Gaillard, Jessica N. Busler, and Hollie P. Lee</i>	

Hematology

Thromboelastographic evaluation of dogs bitten by rattlesnakes native to southern California	532
<i>Beth A. Lieblich, Philip J. Bergman, and Nathan W. Peterson</i>	

Molecular Biology

Mutation responsible for congenital photosensitivity and hyperbilirubinemia in Southdown sheep	538
<i>Christian J. Posergh, Sara E. Kalla, Nathan B. Sutter, Bud C. Tennant, and Heather J. Huson</i>	

Musculoskeletal System

- Effect of contact time on variance of ground reaction forces during force platform gait analysis of a heterogeneous sample of clinically normal dogs. 546
Christopher L. Hoffman, Nicola J. Volstad, Eric C. Hans, Brett W. Nemke, and Peter Muir

Ophthalmology

- Comparison of the efficacy of various concentrations and combinations of serum, ethylenediaminetetraacetic acid, tetracycline, doxycycline, minocycline, and *N*-acetylcysteine for inhibition of collagenase activity in an in vitro corneal degradation model. 555
Beth A. Kimmitt, George E. Moore, and Jean Stiles

- Comparison of angiographic dyes and injection techniques for ocular anterior segment angiography in horses 562
Chris G. Pirie, Alexander J. LoPinto, and Wade A. Tenney

Pharmacology

- Effect of age on the pharmacokinetics and pharmacodynamics of flunixin meglumine following intravenous and transdermal administration to Holstein calves 568
Michael D. Kleinhenz, Nicholas K. Van Engen, Patrick J. Gorden, Joe S. Smith, Butch Kukanich, Suzanne M. Rajewski, Philip Walsh, Steven Perkins, and Johann F. Coetzee

Surgery

- Comparison of enterotomy leak pressure among fresh, cooled, and frozen-thawed porcine jejunal segments. 576
Kimberly A. Aeschlimann, F. A. Mann, John R. Middleton, and Rebecca C. Belter

Correction

- Gross and histologic evaluation of effects of photobiomodulation, silver sulfadiazine, and a topical antimicrobial product on experimentally induced full-thickness skin wounds in green iguanas (*Iguana iguana*) 580
