## Letters to the Editor

|                                                                                                      |     |
|------------------------------------------------------------------------------------------------------|-----|
| Adding cholesterol to diets of animals induces copper deficiency and promotes oxidative damage ..... | 591 |
|------------------------------------------------------------------------------------------------------|-----|

## Analytic Techniques

|                                                                                                                                                              |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Simulation of spatial diffusion of platinum from carboplatin-impregnated calcium sulfate hemihydrate beads by use of an agarose gelatin tissue phantom ..... | 592 |
| <i>Heidi Phillips, Elizabeth A. Maxwell, David J. Schaeffer, and Timothy M. Fan</i>                                                                          |     |

## Anesthesia - Analgesia

|                                                                                                                                                                                                          |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Effects of three fentanyl plasma concentrations on the minimum alveolar concentration of isoflurane in Hispaniolan Amazon parrots ( <i>Amazona ventralis</i> ) .....                                     | 600 |
| <i>Michelle G. Hawkins, Peter J. Pascoe, Heather K. DiMaio Knych, Tracy L. Drazenovich, Philip H. Kass, and David Sanchez-Migallon Guzman</i>                                                            |     |
| Pharmacokinetics of fentanyl after intravenous administration in isoflurane-anesthetized red-tailed hawks ( <i>Buteo jamaicensis</i> ) and Hispaniolan Amazon parrots ( <i>Amazona ventralis</i> ) ..... | 606 |
| <i>Peter J. Pascoe, Bruno H. Pypendop, Juan C. Pavez Phillips, Heather K. DiMaio Knych, David Sanchez-Migallon Guzman, and Michelle G. Hawkins</i>                                                       |     |
| Plasma concentrations of lidocaine following laryngeal administration or laryngeal and intratesticular administration in cats .....                                                                      | 614 |
| <i>Hamzeh Soltaninejad and Nasser Vesal</i>                                                                                                                                                              |     |

## Biomechanics

|                                                                                                                                                         |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Contribution of antirotational pins and an intact fibula to the ex vivo compressive strength of four tibial plateau leveling osteotomy constructs ..... | 621 |
| <i>Jeffery J. Biskup, Joseph P. Weigel, Peter K. Liaw, and Xie Xie</i>                                                                                  |     |

## Diagnostic Imaging

|                                                                                                                                                                   |     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Comparison of ultrasound-guided and landmark-based techniques for central venous catheterization via the external jugular vein in healthy anesthetized dogs ..... | 628 |
| <i>Danielle M. Hundley, Aimee C. Brooks, Elizabeth J. Thomovsky, Paula A. Johnson, Lynetta J. Freeman, Ryan M. Schafbuch, Hock Gan Heng, and George E. Moore</i>  |     |

## Infectious Disease

|                                                                                                                                                          |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Evaluation of potential predictor variables for PCR assay diagnosis of <i>Anaplasma phagocytophilum</i> infection in equids in Northern California ..... | 637 |
| <i>C. Langdon Fielding, Diane M. Rhodes, Elizabeth J. Howard, and Jennifer R. Mayer</i>                                                                  |     |

---

## **Oncology**

- Quantification and prognostic value of programmed cell death ligand-1 expression in dogs with diffuse large B-cell lymphoma . . . . . 643  
*Lisbeth A. Ambrosius, Deepika Dhawan, José A. Ramos-Vara, Audrey Ruple, Deborah W. Knapp, and Michael O. Childress*

## **Ophthalmology**

- Blink patterns and kinematics of eyelid motion in ophthalmologically normal horses . . . . . 650  
*Lori J. Best, Vasilios Alexiades, Diane V. H. Hendrix, Thomas Chen, and Daniel A. Ward*

## **Pharmacology**

- Pharmacokinetics of enrofloxacin and its metabolite ciprofloxacin following single-dose subcutaneous injection in black-tailed prairie dogs (*Cynomys ludovicianus*) . . . . . 658  
*David Eshar, Loudon T. Wright, Christina E. McCullough, and Butch Kukanich*

## **Respiratory System**

- Effects of magnesium sulfate infusion on clinical signs and lung function of horses with severe asthma . . . . . 664  
*Ludovic Tanquerel, Gabrielle Fillion-Bertrand, Jean-Pierre Lavoie, and Mathilde Leclerc*

## **Toxicology**

- Effect of subchronic oral exposure to zearalenone on the reproductive system of rabbit bucks. . . . . 674  
*Theodora K. Tsouloufi, Ioannis A. Tsakmakidis, Georgios Tsousis, Nikolaos Papaioannou, Eleni Tzika, and Maria Kritsepi-Konstantinou*

## **Correction**

- Correction: Comparison of desflurane and propofol at equipotent doses in combination with constant rate infusion of dexmedetomidine on global and peripheral perfusion and oxygenation in horses . . . . . 673
