

JAVMA News Digest

JAVMA News Digest	1116
-------------------------	------

Analytic Techniques

Analytic characterization of flow cytometric assays for detection of immunoglobulin G on canine erythroid cells, including detection of dog erythrocyte antigen I on erythroid precursors	1123
<i>Cynthia A. Lucidi, John A. Gerlach, Susan Forney, L. Ari Jutkowitz and Michael A. Scott</i>	

Diagnostic Imaging

Effect of radiographic technique on assessment of liver size in Beagles	1133
<i>Ahyoung Cha, Seungjo Park, Choelhyun Kim, Sooa Yoon, Dahae Lee, Dongeun Kim, Dong Woo Chang, and Jihye Choi</i>	
Evaluation of liver lesions by use of shear wave elastography and computed tomography perfusion imaging after radiofrequency ablation in clinically normal dogs.	1140
<i>Dahae Lee, Seungju Park, Mary Jasmin C. Ang, Jun-Gyu Park, Sooa Yoon, Cheolhyun Kim, Sang-kwon Lee, Kyoung-oh Cho, and Jihye Choi</i>	

Digestive System - Nutrition

Effects of a nutrient-enriched water with and without poultry flavoring on water intake, urine specific gravity, and urine output in healthy domestic cats fed a dry kibble diet.	1150
<i>Brian M. Zanghi, Emma Wils-Plotz, Staci DeGeer, and Cari L. Gardner</i>	

Immunology

Quantitation of anti- <i>Pythium insidiosum</i> antibodies before and after administration of an immunotherapeutic product to healthy dogs	1160
<i>Carmen B. Arsuaga-Zorrilla, Amy M. Grooters, and Cherie M. Pucheu-Haston</i>	
Cell-mediated and humoral immune responses to bovine herpesvirus type I and bovine viral diarrhea virus in calves following administration of a killed-virus vaccine and bovine herpesvirus type I challenge	1166
<i>Travis R. Van Anne, Carol L. Rinehart, Robin E. Buterbaugh, Matt J. Bauer, Alan J. Young, Michelle L. Blaha, Angela L. Klein, and Christopher C. L. Chase</i>	

Infectious Disease

Risk of environmental exposure to small coccidia from wild canid feces in rural Ohio.	1179
<i>Karla I. Moreno-Torres, Devinn M. Sinnott, Barbara A. Wolfe, Antoinette E. Marsh, William J. A. Saville, Mark Moritz, and Rebecca B. Garabed</i>	

Musculoskeletal System

- Evaluation of a quantitatively derived value for assessment of muscle mass in clinically normal cats 1188
Lisa M. Freeman, James Sutherland-Smith, Charles Cummings, and John E. Rush

Pharmacology

- Effect of age on the pharmacokinetics and distribution of tulathromycin in interstitial
and pulmonary epithelial lining fluid in healthy calves 1193
*Danielle A. Mzyk, Claire M. Bublit, Ginger D. Hobgood, Marilyn N. Martinez, Geof W. Smith,
and Ronald E. Baynes*
- Effects of furosemide administration to water-deprived inland bearded dragons (*Pogona vitticeps*) 1204
Lily A. Parkinson and Christoph Mans

Respiratory System

- Comparison of bronchoscopic and nonbronchoscopic bronchoalveolar lavage in healthy cats. 1209
*Kimberly S. Hooi, Alice M. Defarges, Andrea L. Sanchez, Stephanie G. Nykamp, J. Scott Weese,
Anthony C. G. Abrams-Ogg, and Dorothee Bienzle*

Surgery

- Three-dimensional assessment of the influence of juvenile pubic symphysiodesis
on the pelvic geometry of dogs 1217
*Anna E. Dunlap, Kyle G. Mathews, Bethany L. Walters, Kent A. Bruner, Hongyu Ru,
and Denis J. Marcellin-Little*
