Anesthesia - Analgesia

Evaluation of the thermal antinociceptive effects and pharmacokinetics after intramuscular administration of buprenorphine hydrochloride to cockatiels (<i>Nymphicus hollandicus</i>)	1239
<i>David Sanchez-Migallon Guzman, Emma L. Houck, Heather K. DiMaio Knych, Hugues Beaufrère, and Joanne R. Paul-Murphy</i>	

Assessment of sedation after intranasal administration of midazolam and midazolam-butorphanol in cockatiels (<i>Nymphicus hollandicus</i>)	1246
<i>Grayson A. Doss, Dustin M. Fink, and Christoph Mans</i>	

Sedative and cardiopulmonary effects of buccally administered detomidine gel and reversal with atipamezole in dogs	1253
<i>Jennifer I. Kasten, Kristen M. Messenger, and Nigel B. Campbell</i>	

Effect of a constant rate infusion of remifentanyl hydrochloride on left ventricular systolic and diastolic function in propofol-anesthetized dogs	1261
<i>Marcel G. Marques, Carlos H. B. Cancelli, Carollina M. S. Fernandes, Bruna M. M. Games, Beatriz P. Floriano, Silvia H. V. Perri, Marlos G. Sousa, Wagner L. Ferreira, and Paulo S. P. Santos</i>	

Antimicrobials

Pharmacokinetics and pharmacodynamics of oral pradofloxacin administration in dogs	1268
<i>Dawn M. Boothe, Kaleigh M. Bush, Harry W. Boothe, and Heather A. Davis</i>	

Behavior

Evaluation of animal-to-animal and community contact structures determined by a real-time location system for correlation with and prediction of new bovine respiratory disease diagnoses in beef cattle during the first 28 days after feedlot entry	1277
<i>Douglas D. Shane, Jiena G. McLellan, Brad J. White, Robert L. Larson, David E. Amrine, Michael W. Sanderson, and Michael D. Apley</i>	

Biomechanics

In vitro mechanical evaluation of three transfixation pin-cast constructs applied to equine forelimbs	1287
<i>Keri L. Thomas, James L. Carmalt, Wadena D. Burnett, Hanieh Arjmand, and James D. Johnston</i>	

Diagnostic Imaging

- Influence of injection protocol and measurement technique on computed tomographic assessment of glomerular filtration rate in healthy Beagles 1298
Michael Wallimann, Henning Richter, Nadja S. Sieber-Ruckstuhl, Alexandra Blaser, Thomas C. Gent, Stefanie D. Krämer, Guido Santner, Patrick R. Kircher, and Matthias Dennler

Immunology

- Activation of chicken macrophages during in vitro stimulation and expression of immune genes. 1306
Xing Jin, Xu Zhang, Jinchun Li, Weiye Yu, and Fangfang Chen

Musculoskeletal System

- Quantitative assessment of intravenous regional limb perfusion of tiludronate as an adjunctive treatment for lameness caused by navicular syndrome in horses. 1313
Mike J. Schoonover, Chase T. Whitfield, Jenna M. Young, Kate M. Sippel, and Mark E. Payton

Surgery

- Effect of pneumoperitoneum with warmed humidified or standard-temperature carbon dioxide during laparoscopy on core body temperature, cardiorespiratory and thromboelastography variables, systemic inflammation, peritoneal response, and signs of postoperative pain in healthy mature dogs. 1321
Jacqueline E. Scott, Ameet Singh, Alexander Valverde, Shauna L. Blois, Robert A. Foster, Jessica J. Kilkenny, and Alex R. zur Linden
- Effects of a surgical sealant on leakage pressure and circumference of fresh canine cadaver small intestinal anastomoses. 1335
Liliana M. Mutascio, Gert J. Breur, George E. Moore, and Micha C. Simons
