| Effect of the addition of epinephrine to a lidocaine solution on the efficacy and duration of palmar digital nerve blocks in horses with naturally occurring forefoot lameness ..... | 1028 |
| <i>Ana Velloso Alvarez, John Schumacher, and Fred J. DeGraves</i>                                                                                                                    |      |

## **Cardiovascular System**

|                                                                                                                                                       |      |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Evaluation of tissue Doppler ultrasonographic and strain imaging for assessment of myocardial dysfunction in dogs with type I diabetes mellitus ..... | 1035 |
| <i>Yun-Hye Kim, Jung-Hyun Kim, and Chul Park</i>                                                                                                      |      |

## **Diagnostic Imaging**

|                                                                                                                             |      |
|-----------------------------------------------------------------------------------------------------------------------------|------|
| Influence of neck position on commonly performed radiographic measurements of the cervical vertebral region in horses. .... | 1044 |
| <i>Francesca Beccati, Isabella Santinelli, Sara Nannarone, and Marco Pepe</i>                                               |      |

## **Digestive System - Nutrition**

|                                                                                                                                       |      |
|---------------------------------------------------------------------------------------------------------------------------------------|------|
| Effect of prednisolone administration on gallbladder emptying rate and gallbladder bile composition in dogs .....                     | 1050 |
| <i>Takuro Nagahara, Koichi Ohno, Hideyuki Kanemoto, Toshiaki Kakimoto, Kenjiro Fukushima, Yuko Goto-Koshino, and Hajime Tsujimoto</i> |      |

## **Hematology**

|                                                                                                                             |      |
|-----------------------------------------------------------------------------------------------------------------------------|------|
| Pharmacokinetics of tranexamic acid in healthy dogs and assessment of its antifibrinolytic properties in canine blood ..... | 1057 |
| <i>Katie E. Osekavage, Benjamin M. Brainard, Selena L. Lane, Mohammed Almoslem, Robert D. Arnold, and Amie Koenig</i>       |      |

## **Immunology**

- Effects of calcitriol on phagocytic function, toll-like receptor 4 expression, and cytokine production of canine leukocytes ..... 1064  
*Jared A. Jaffey, Juliana Amorim, and Amy E. DeClue*

- Effects of calcitriol on apoptosis, toll-like receptor 4 expression, and cytokine production of endotoxin-primed canine leukocytes ..... 1071  
*Jared A. Jaffey, Juliana Amorim, and Amy E. DeClue*

## **Neurology**

- Epidemiological and morphological characteristics of incomplete ossification of the dorsal neural arch of the atlas in dogs with atlantoaxial instability ..... 1079  
*Fumitaka Takahashi, Takaharu Hakozaiki, Shigenori Kouno, Shuji Suzuki, Asaka Sato, Nobuo Kanno, Yasuji Harada, Shinya Yamaguchi, and Yasushi Hara*

## **Ophthalmology**

- Corneal thickness, endothelial cell density, and morphological and morphometric features of corneal endothelial cells in goats ..... 1087  
*Natalia Coy, Marta Leiva, Daniel Costa, José Rios, and Teresa Peña*

## **Pharmacology**

- Pharmacokinetics and pharmacodynamics of mycophenolic acid in healthy cats after twice-daily intravenous infusion of mycophenolate mofetil for three days ..... 1093  
*Jennifer E. Slovak, Sol M. Rivera-Velez, Julianne K. Hwang, and Nicolas F. Villarino*

## **Tissue Regeneration - Healing**

- Effects of enzyme and cryoprotectant concentrations on yield of equine adipose-derived multipotent stromal cells ..... 1100  
*Wei Duan and Mandi J. Lopez*

## **Correction**

- Feasibility of near-infrared fluorescence imaging for sentinel lymph node evaluation of the oral cavity in healthy dogs ..... 1043
