Anesthesia - Analgesia

Comparison of speed of onset and analgesic effect of 2% mepivacaine hydrochloride deposited within or outside the neurovascular bundle at the level of the proximal sesamoid bones in horses with naturally occurring forefoot-related lameness	394
<i>John Schumacher, Robert C. Cole, Fred J. DeGraves, and Lawrence G. Cofield</i>	

Efficacy and duration of effect for liposomal bupivacaine when administered perineurally to the palmar digital nerves of horses	400
<i>Megan J. McCracken, James Schumacher, Thomas J. Doherty, Xiaocun Sun, Cailey L. Nichols, and Jeffrey Olivarez</i>	

Diagnostic Imaging

Radiographic localization of the attachments of soft tissue structures in the tarsal region of horses	406
<i>Jose M. Casillas, Carrie C. Jacobs, and Jane M. Manfredi</i>	

Neurology

Evaluation of cell-free DNA as a diagnostic marker in cerebrospinal fluid of dogs	416
<i>Amy C. Stark, Stephanie McGrath, Marta Karn, and Christine E. Thomson</i>	

F-wave parameters for the tibial nerve in Miniature Dachshunds with and without naturally acquired thoracolumbar intervertebral disk herniation	422
<i>Seiichi Okuno and Kensuke Orito</i>	

Ophthalmology

Effectiveness of MB-102, a novel fluorescent tracer agent, for conducting ocular angiography in dogs	428
<i>Christopher G. Pirie, Thomas E. Rogers, and Richard B. Dorshow</i>	

Physiology

- Evaluation of subcutaneously administered electrolyte solutions in experimentally dehydrated inland bearded dragons (*Pogona vitticeps*) 437
Lily A. Parkinson and Christoph Mans

Theriogenology

- Effects of transrectal palpation with the fetal membrane slip technique for early pregnancy diagnosis on the proportion and type of associated pregnancy loss in dairy cattle 442
Juan E. Romano, James A. Thompson, Duane C. Kraemer, and David W. Forrest

Urology

- Randomized controlled trial to evaluate a novel two-catheter technique for urethral catheterization in anesthetized healthy female cats and small dogs 448
Brittany E. Abrams, Laura E. Selmic, James Howard, Stephen J. Horvath, Linda Bednarski, Mary A. McLoughlin, and Vincent A. Wavreille
