

PARASITOLOGY

CONTENTS

REVIEW ARTICLES

Recent advances in nucleic acid-based methods for detection of helminth infections and the perspective of biosensors for future development

Hanif Ullah, Abdul Qadeer, Muhammad Rashid, Muhammad Imran Rashid and Guofeng Cheng

383

Bioinformatic analysis of eosinophil activity and its implications for model and target species

C. J. Jenvey, D. Alenizi, F. Almasi, C. Cairns, A. Holmes, S. Sloan and M. J. Stear

393

RESEARCH ARTICLES

Besnoitia besnoiti bradyzoite stages induce suicidal- and rapid vital-NETosis

Ershun Zhou, Liliana M. R. Silva, Iván Conejeros, Zahady D. Velásquez, Manuela Hirz, Ulrich Gärtner, Philippe Jacquet, Anja Taubert and Carlos Hermosilla

401

Life history traits and interactions of *Stylops advarians* (Strepsiptera) with its bee host, *Andrena milwaukeensis*

Zach S. Balzer and Arthur R. Davis

410

High diversity of fish ectoparasitic monogeneans (*Dactylogyrus*) in the Iberian Peninsula: a case of adaptive radiation?

Michal Benovics, Yves Desdevises, Radek Šanda, Jasna Vukić, Mathilde Scheifler, Ignacio Doadrio, Carla Sousa-Santos and Andrea Šimková

418

Direct onshore wind predicts daily swimmer's itch (avian schistosome) incidence at a Michigan beach

Jason P. Sckrabulis, Alan R. Flory and Thomas R. Raffel

431

Plasmodium transmission differs between mosquito species and parasite lineages

Rafael Gutiérrez-López, Josué Martínez-de la Puente, Laura Gangoso, Ramón Soriguer and Jordi Figuerola

441

Phylogenetic characterisation of seven *Unicapsula* spp. (Myxozoa: Myxosporaea: Multivalvulida) from commercial fish in southern China and Japan

Ying-Chun Li, Souhei Tamemasa, Jin-Yong Zhang and Hiroshi Sato

448

CD14⁺ monocytes are the main leucocytic sources of CXCL10 in response to *Plasmodium falciparum*

Lisa J. Ioannidis, Emily Eriksson and Diana S. Hansen

465

Gastroenteric parasite of wild Galliformes in the Italian Alps: implication for conservation management

A. Fanelli, G. Menardi, M. Chiodo, O. Giordano, G. Ficetto, M. Bessone, A. Lasagna, M. G. Carpignano, A. Molinar Min, A. Gugiatti, P. G. Meneguz and P. Tizzani

471

Black sea bass are a host in the developmental cycle of *Lernaeenicus radiatus* (Copepoda: Pennellidae): insights into parasite morphology, gill pathology and genetics

J. Lovy and S. E. Friend

478

Ecological release in lizard endoparasites from the Atlantic Forest, northeast of the Neotropical Region

Adonias A. Martins Teixeira, Pablo Riul, Samuel Vieira Brito, João A. Araujo-Filho, Diêgo Alves Teles, Waltécio de Oliveira Almeida and Daniel Oliveira Mesquita

491

Vitamin supplementation increases the virulence of *Entamoeba histolytica* grown axenically

Javier Vargas-Villareal, Gerardo Lozano-Garza, Salvador Luis Said-Fernández, Francisco González-Salazar, María Guadalupe Moreno-Treviño, Ofelia Monsiváis-Díaz, Alan Giresse Lozano-Alanís and Francisco Javier Guzmán-de la Garza

501
