Anesthesia - Analgesia

Comparison of the effects on lameness of orally administered acetaminophen-codeine and carprofen in dogs with experimentally induced synovitis	627
<i>Steven C. Budsberg, Stephanie A. Kleine, Megan M. Norton, Gabriella S. Sandberg, and Mark G. Papich</i>	

Clinical evaluation of arterial blood pressure in anesthetized dogs by use of a veterinary-specific multiparameter monitor	635
<i>Zöe R. Jacobs-Fohrman, Tamsin S. Barnes, Margaret M. McEwen, and Wendy A. Goodwin</i>	

Clinical Pathology

Investigation for correction formulas on the basis of packed cell volume for blood glucose concentration measurements obtained with portable glucometers when used in rabbits	642
<i>Daniel C. Cutler, Amie Koenig, Nicola Di Girolamo, and Jörg Mayer</i>	

Pharmacology

Pharmacokinetics of amantadine after oral administration of single and multiple doses to orange-winged Amazon parrots (<i>Amazona amazonica</i>)	651
<i>Kyra J. Berg, David Sanchez-Migallon Guzman, Heather K. Knych, Tracy L. Drazenovich, and Joanne R. Paul-Murphy</i>	

Pharmacokinetics and pharmacodynamics of a novel analgesic with a deterrent to human opioid abuse (methadone-fluconazole-naltrexone) after oral administration in dogs	656
<i>Butch KuKanich, Kate KuKanich, David C. Rankin, Charles W. Locuson, and Hyun Joo</i>	

Respiratory System

Ex vivo modeling of the airflow dynamics and two- and three-dimensional biomechanical effects of suture placements for prosthetic laryngoplasty in horses	665
<i>Nicola P. Lynch, Sarah A. Jones, Lucy G. Bazley-White, Zoe F. Wilson, Jennifer Raffetto, Thilo Pfau, Jonathon Cheetham, and Justin D. Perkins</i>	

Efficacy of sodium iodide for prevention of respiratory disease in preweaned dairy calves.....	673
<i>Lisa Gamsjaeger, Brian L. Vander Ley, Heather K. Knych, Gary R. McArthur, and Meera C. Heller</i>	

Surgery

Assessment of skin staples for augmentation of core tenorrhaphy in an ex vivo model of canine superficial digital flexor tendon laceration.....	681
<i>Yi-Jen Chang, Daniel J. Duffy, Lewis Gaffney, Matthew B. Fisher, and George E. Moore</i>
