Special Guest Editor (Popping & Diaz-Amigo)

A Paradigm Shift: From "Sample to Laboratory" to "Laboratory to Sample"

Bert Popping and Carmen Diaz-Amigo 1

Detecting Food Fraud in Extra Virgin Olive Oil Using a Prototype Portable Hyphenated Photonics Sensor

Yannick Weesepeol, Martin Alewijn, Michiel Wijtten, and Judith Müller-Maatsch 7

Food Fingerprinting: Using a Two-Tiered approach to Monitor and Mitigate Food Fraud in Rice

Terence F. McGrath, Maeve Shannon, Olivier P. Chevallier, Ratnasekhar Ch, Fei Xu, Fanzhou Kong,

Hong Peng, Ernest Teye, Selorm Akaba, Di Wu, Libiao Wu, Qiang Cai, Doan Duy Le Nguyen,

Van Viet Man Le, Sufyan Pandor, Arun P. Kapil, Guangtao Zhang, Mary McBride, and

Christopher T. Elliott 16

Application of Mid-Infrared Portable Spectrometer for the Rapid Determination of Trans-Fatty Acid Content in Lipid Extracts of Snack and Bakery Products

Mei-Ling Shotts, Marcal Plans, Kevin Wong, Alex M. Milligan, Didem P. Aykas, and

Luis E. Rodriguez-Saona 29

Overview of Portable Assays for the Detection of Mycotoxins, Allergens, and Sanitation Monitoring

Ronald W. Sarver, David J. Almy, Eric R. Bergeron, Benjamin F. Strong, Brent A. Steiner, Robert Donofrio,

Anthony J. Lupo, R. Lucas Gray, and Amanda K. Sperry 39

Next Generation of LFD Testing – Smartphone-Based Mycotoxin Analysis with RIDA[®] SMART APP

Kai Pumpa, Markus Lacorn, Michael Mättner, David Steinmann, and Jasmin Wolf 49

Near Infrared Reflectance Spectroscopy Coupled to Chemometrics as a Cost-Effective, Rapid, and Non-Destructive Tool for Fish Fraud Control: Monitoring Source, Condition, and Nutritional Value of Five Common Whitefish Species

Diogo B. Gonçalves, Carla S. P. Santos, Teresa Pinho, Rafael Queirós, Pedro D. Vaz, Mark Bloore,

Paolo Satta, Zoltán Kovács, Susana Casal, and Isabel Hoffmann 53

Non-Destructive Measurement of the Internal Quality of Citrus Fruits Using a Portable NIR Device

Carla S.P. Santos, Rebeca Cruz, Diogo B. Gonçalves, Rafael Queirós, Mark Bloore, Zoltán Kovács,

Isabel Hoffmann, and Susana Casal 61

Animal food, pet food, and plant nutrient methods

The Analysis of Docosahexaenoic Acid (DHA) in Dried Dog Food Enriched with an *Aurantiochytrium limacinum* Biomass: Matrix Extension Validation and Verification of AOAC Method 996.06

Gerald Patrick Dillon, Cathy Cardinall, Jason D. Keegan, Alexandros Yiannikouris, Walter Brandl, and

Colm Anthony Moran 68

Drug formulations

Box-Behnken Design-Desirability Function Approach in Optimization of HPLC Method for Simultaneous Determination of Ibuprofen Along with Additives in Syrup Formulation

Şule Dinç-Zor and Özlem Aksu Dönmez 78
