Anesthesia - Analgesia

Multiple-dose pharmacokinetics and opioid effects of a novel analgesic with a deterrent to human opioid abuse (methadone-fluconazole-naltrexone) after oral administration in dogs	171
<i>Butch KuKanich, Kate KuKanich, Charles W. Locuson, David C. Rankin, Alyson H. Fitzgerald, Peter Cho, and Marissa S. Komp</i>	

Pharmacokinetics and pharmacodynamics of methadone administered intravenously and intramuscularly to isoflurane-anesthetized chickens	181
<i>André Escobar, Michele Barletta, Bruno H. Pypendop, Daniel M. Sakai, Julie Gordon, and Jane E. Quandt</i>	

Antimicrobials

Effects of various wound dressings on microbial growth in perfused equine musculocutaneous flaps	189
<i>Eva De Clercq, Stien Den Hondt, Cindy De Baere, and Ann M. Martens</i>	

Biomechanics

In vitro assessment of the motion of equine proximal sesamoid bones relative to the third metacarpal bone under physiologic midstance loads	198
<i>Sarah K. Shaffer, Natalia Sachs, Tanya C. Garcia, David P. Fyhrie, and Susan M. Stover</i>	

Cardiovascular System

Evaluation of electrocardiographic repolarization parameters after administration of trimethoprim-sulfadiazine, detomidine, or their combination in horses	207
<i>Dagmar S. Trachsel, Kirstine Calloe, Elin Jørgensen, Christine S. Lunddahl, Philip J. Pedersen, Jørgen K. Kanters, Dan A. Klaerke, and Rikke Buhl</i>	

Digestive System - Nutrition

Evaluation of duodenal endoscopic and histologic findings, including counts of forkhead box P3-positive regulatory T cells, in dogs with immunosuppressant-responsive enteropathy	218
<i>Elena Benvenuti, Alessio Pierini, Silvia L. Benali, Eleonora Gori, Francesca Abramo, Enrico Bottero, Marco Pietra, Pietro Ruggiero, and Veronica Marchetti</i>	

Musculoskeletal System

- Comparison of basilar sesamoidean and distal approaches for synoviocentesis
of the forelimb digital flexor tendon sheath in horses. 225
Kathryn M. Slaughter-Mehfoud and Annette M. McCoy

Neurology

- Evaluation of cerebral blood flow in the hippocampus, thalamus, and basal ganglia and the volume
of the hippocampus in dogs before and during treatment with prednisolone 230
*Kentaro Yamazaki, Aritada Yoshimura, Shunsuke Miyahara, Shoma Sugi, Maho Itono, Mina Kondo,
Nanako Tsuji, Miki Shimizu, Ryuji Fukushima, and Miori Kishimoto*

Surgery

- Comparison of intra- and postoperative variables between laparoscopic and open ovariectomy
in rabbits (*Oryctolagus cuniculus*) 237
Claudia Kabakchiev, Ameet Singh, Samantha Dobson, and Hugues Beaufrère
