

# PARASITOLOGY

## CONTENTS

### RESEARCH ARTICLES

- Haplotype comparisons of *Echinococcus granulosus sensu lato* via mitochondrial gene sequences (*co1*, *cytb*, *nadh1*) among Pakistan and its neighbouring countries  
Aisha Khan, Haroon Ahmed, Sami Simsek, Khuram Shahzad, Figen Celik, Muhammad Sohail Afzal, Mobushir Riaz Khan, Hua Liu, Yujuan Shen and Jianping Cao 1019
- Differential drivers of intraspecific and interspecific competition during malaria-helminth co-infection  
L. F. Wait, T. Kamiya, K. J. Fairlie-Clarke, C. J. E. Metcalf, A. L. Graham and N. Mideo 1030
- Molecular evidence of three closely related species of *Biacetabulum* Hunter, 1927 (Cestoda: Caryophyllidea): a case of recent speciation in different fish hosts (Catostomidae)?  
Dalibor Uhrovič, Mikuláš Oros, Olena Kudlai, Anindo Choudhury and Tomáš Scholz 1040
- Conspecific migration and environmental setting determine parasite infracommunities of non-migratory individual fish  
Eloise C. Rochat, Jakob Brodersen and Isabel Blasco-Costa 1057
- Fibronectin degradation as biomarker for *Trypanosoma cruzi* infection and treatment monitoring in mice  
Nora Adriana Hernández-Cuevas, Andrea Marín-Cervera, Shirelly García-Polanco, Pedro Martínez-Vega, Miguel Rosado-Vallado and Eric Dumontell 1067
- Amoebicidal activity of *Cassia angustifolia* extract and its effect on *Acanthamoeba triangularis* autophagy-related gene expression at the transcriptional level  
Rachasak Boonhok, Suthinee Sangkanu, Roghayeh Norouzi, Abolghasem Siadatpanah, Farzaneh Mirzaei, Watcharapong Mitsunwan, Nurdina Charong, Sueptrakool Wisessombat, Maria de Lourdes Pereira, Mohammed Rahmatullah, Polrat Wilairatana, Christophe Wiert, Hazel Anne Tabo, Karma G. Dolma and Veeranoote Nissapatorn 1074
- Morphological and molecular characterization of *Quinqueserialis* (Digenea: Notocotylidae) species diversity in North America  
Demi K. Gagnon, Emily A. Kasl, Whitney C. Preisser, Lisa K. Belden and Jillian T. Detwiler 1083
- The situation of echinococcosis in stray dogs in Turkey: the first finding of *Echinococcus multilocularis* and *Echinococcus orteppi*  
Hamza Avcioglu, Esin Guven, Ibrahim Balkaya, Ridvan Kirman, Muzaffer Akyuz, Mohammed Mebarek Bial, Hatice Gulbeyen and Sali Yaya 1092
- Two parasites in one host: spatiotemporal dynamics and co-occurrence of Microsporidia and *Rickettsia* in an amphipod host  
Eunji Park and Robert Poulin 1099
- Ezetimibe blocks *Toxoplasma gondii*-, *Neospora caninum*- and *Besnoitia besnoiti*-tachyzoite infectivity and replication in primary bovine endothelial host cells  
Camilo Larrazabal, Liliana M. R. Silva, Carlos Hermosilla and Anja Taubert 1107

### OBITUARY

- In Memoriam* Lani Stephenson (1948–2021): a scientific pioneer of human nutrition and parasitic disease studies  
Celia Holland and Malden Nesheim 1116
