

# PARASITOLOGY

## CONTENTS

### REVIEW ARTICLE

The role of upstream open reading frames in translation regulation in the apicomplexan parasites *Plasmodium falciparum* and *Toxoplasma gondii*  
Chhaminder Kaur and Swati Patankar

1277

Sporadic isolation of *Tetrahymenopsis* species from the cattle urogenital tract

Nicholas P. Bailey, Elena Velo-Rego and Robert P. Hirt 1339

### RESEARCH ARTICLES

Absence of *Cryptosporidium hominis* and dominance of zoonotic *Cryptosporidium* species in patients after Covid-19 restrictions in Auckland, New Zealand  
M. A. Knox, J. C. García-R, P. Ogbuigwe, A. Pita, N. Velathanthiri and D. T. S. Hayman

1288

Parasitological findings in the invasive California kingsnake (*Lampropeltis californiae*) in Gran Canaria, Spain

Kevin M. Santana-Hernández, Jorge Orós, Simon L. Priestnall, Catalina Monzón-Argüello and Eligia Rodríguez-Ponce 1345

Molecular and morphological characterization of *Bolbosoma balaenae* (Acanthocephala: Polymorphidae), a neglected intestinal parasite of the fin whale *Balaenoptera physalus*  
Mario Santoro, Marialetizia Palomba, Claudia Gilli, Federica Marcer, Erica Marchiori and Simonetta Mattiucci

1293

*Dipetalonema graciliformis* (Freitas, 1964) from the red-handed tamarins (*Saguinus midas*, Linnaeus, 1758) in French Guiana

Younes Laidoudi, Riccardo Paolo Lia, Jairo Alfonso Mendoza-Roldan, David Modrý, Charles-Arnaud de Broucker, Oleg Mediannikov, Bernard Davoust and Domenico Otranto 1353

Genotypic variation in an ecologically important parasite is associated with host species, lake and spore size  
Clara L. Shaw, Rebecca Bilich, Bruce O'Brien, Carla E. Cáceres, Spencer R. Hall, Timothy Y. James and Meghan A. Duffy

1303

Investigation of giardiasis in captive animals in zoological gardens with strain typing of assemblages in China

Hua Liu, Bin Wang, Jianhai Yin, Zhongying Yuan, Yanyan Jiang, Jing Zhang, Jianping Cao, Yujuan Shen and Hui Liu 1360

The people vs science: can passively crowdsourced internet data shed light on host-parasite interactions?  
Jean-François Doherty, Antoine Fillion, Jerusha Bennett, Upendra Raj Bhattacharai, Xuhong Chai, Daniela de Angeli Dutra, Erica Donlon, Fátima Jorge, Marin Milotic, Eunji Park, Amandine J. M. Sabadel, Leighton J. Thomas and Robert Poulin

1313

*Echinostoma chankensis* nom. nov., other *Echinostoma* spp. and *Isthmiophora hortensis* in East Asia: morphology, molecular data and phylogeny within Echinostomatidae

Anna V. Izrailskaya, Vladimir V. Besprozvannykh and Yulia V. Tatonova 1366

Combination therapy using nitro compounds improves the efficacy of experimental Chagas disease treatment  
Ana Lia Mazzetti, Karolina R. Gonçalves, Suianne L. A. Mota, Dário Elias Pereira, Lívia de F. Diniz and Maria Terezinha Bahia

1320

Identification of the avian tracheal trematode *Typhlocoelum cucumerinum* (Trematoda: Cyclocoelidae) in a host-parasite-environment system: diagnosis, life cycle and molecular phylogeny

Jordana C. A. Assis, Danimar López-Hernández, Samantha Favoretto, Lilian B. Medeiros, Alan L. Melo, Nelson R. S. Martins and Hudson A. Pinto 1383

Phenological and intrinsic predictors of mite and haemacoccidian infection dynamics in a Mediterranean community of lizards  
Robby M. Drechsler, Josabel Belluire and Rodrigo Megía-Palma

1328

*In vitro* anti-*Acanthamoeba* activity of flavonoid glycosides isolated from *Delphinium gracile*, *D. staphisagria*, *Consolida oliveriana* and *Aconitum napellus*

Rubén Martín-Escalano, Sonia Molero Romero, Jesus G. Díaz, Clotilde Marín, Manuel Sánchez-Moreno and Mª José Rosales 1392
