JAVMA News Digest	780
-------------------------	-----

Analytic Techniques

Effect of crude fiber and total dietary fiber on the calculated nitrogen-free extract and metabolizable energy content of various dog foods fed to client-owned dogs with osteoarthritis	787
<i>Zachary T. Traughber, Katelyn B. Detweiler, Angela K. Price, Kimberly E. Knap, Tisha A. Harper, Kelly S. Swanson, and Maria R. C. de Godoy</i>	

Effects of intravenous administration of pimobendan on hemodynamic indices and indices of left atrial longitudinal strain derived from speckle-tracking echocardiography in healthy dogs	795
<i>Shingo Miki, Kensuke Nakamura, Tomoya Morita, Tatsuyuki Osuga, Sei Kawamoto, Noboru Sasaki, and Mitsuyoshi Takiguchi</i>	

Biometrics

Biomechanical evaluation of two dorsal and two ventral stabilization techniques for atlantoaxial joint instability in toy-breed dogs	802
<i>Alexia Progin, Benjamin Voumard, Brian Friker, and Franck Forterre</i>	

Cardiovascular System

Investigation of the short-term effects of a transdermal formulation of atenolol in healthy cats	811
<i>Nicole L. LeBlanc, Katherine F. Scollan, Sumeia Mohamed, and J. Mark Christensen</i>	

Effect of thermodilution injectate volume and temperature on the accuracy and precision of cardiac output measurements for healthy anesthetized horses	818
<i>Jesse C. A. Jenny, Klaus Hopster, and Samuel D. Hurcombe</i>	

Clinical Pathology

The use of impedance aggregometry to evaluate platelet function after the administration of DDAVP in healthy dogs treated with aspirin or clopidogrel	823
<i>Igor Yankin, Andy M. Carver, and Amy M. Koenigshof</i>	

Ophthalmology

Assessment of iris vasculature abnormalities in dogs with diabetes mellitus	829
<i>Christopher G. Pirie, Leslie M. Shelnutt, and Daniel K. Langlois</i>	

Pharmacology

- Plasma concentrations of tramadol after transdermal application of a single metered dose
of a compounded tramadol gel to cats. 840
Lauren A. Aldrich, James K. Roush, and Butch KuKanich

Urology

- Comparison of urine fibrinogen and interleukin-6 concentrations between healthy dogs
and dogs with risk factors for enterococcal bacteriuria 846
Adam M. Lepold, Dahlia H. Tesfamichael, Faye A. Hartmann, Claire A. Wiley, and Michael W. Wood
