|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>S.K. PARAMASIVAM, A.K. DAVID, S.M. SOMASUNDARAM, B. SUTHANTHIRAM, K.N. SHIVA<br/>AND U. SUBBARAYA</b><br>Influence of food hydrocolloids on the structural, textural and chemical characteristics of low-fat banana chips                                                                                       | 203         |
| <b>D.P.M. ANITHA AND P.S. SELLAMUTHU</b><br>Microencapsulation of probiotics in finger millet milk complex to improve encapsulation efficiency and viability                                                                                                                                                       | 216         |
| <b>S. RABIEI, M. REZAEI, M. NIKOO, M. KHEZRI, M. RAFIEIAN-KOPAI AND M. ANJOMSHOAA</b><br>Antioxidant properties of Klunzinger's mullet ( <i>Liza klunzingeri</i> ) protein hydrolysates prepared with enzymatic hydrolysis using a commercial protease and microbial hydrolysis with <i>Bacillus licheniformis</i> | 233         |
| <b>S.M.B. HASHEMI AND R. ROOHI</b><br>Sonication treatment of pomegranate juice containing <i>Saccharomyces cerevisiae</i> and <i>Byssochlamys fulva</i> : Thermodynamic and predictive modeling after treatment and during shelf life                                                                             | 247         |
| <b>S. JABRAEILI, H. MIRZAEI, N. ANARJAN, A. JAVADI AND M.A. BEHNAJADY</b><br>Nanoliposomal thyme ( <i>Thymus vulgaris</i> ) essential oil: Effects of formulation parameters                                                                                                                                       | 257         |
| <b>H.-H. HUANG, P.K. DIKKALA, K. SRIDHAR, H.-T. YANG, J.-T. LEE AND F.-J. TSAI</b><br>Effect of heat treatment and $\gamma$ -irradiation on pasting, rheological, and fungal load of whole and dehulled millets                                                                                                    | 273         |
